## **Introduction**

This Accountability Report is published annually by North Florida Community College's Office of Institutional Effectiveness, Research, and Accreditation. This report compares North Florida Community College's performance other community colleges in the Florida College System (FCS) and is used by NFCC administration to make decisions impacting areas in need of improvement.

**Measure #1 (Part 1)**

**Enrollment Report**

The Enrollment Measure shows the number and percentage of Florida public high school graduates with a standard diploma from 2009-10, by ethnic category, who enrolled in the Florida College System (FCS) in 2010-11 at a college in the same service district. This information is displayed by degree/college credit certificate seeking and non-degree seeking students.

**Measure #2**

**A.A. Degree Transfer Performance in the SUS Report - by College Preparatory Status**

This measure indicates the performance of Associate in Arts graduates for 2009-10 who transferred to the State Universities System (SUS) in 2010-11. A.A. students who started at one college, transferred to another and then transferred to the State University System are not accounted for in this report. The report focuses solely on the performance of students who received their complete education from one institution. This measure will allow institutions to focus on the results of their own instructional strategies, so appropriate adjustments can be made in response to the results. Performance will be reported by five categories: the percent below 2.0 GPA, the percent at or above 2.0 GPA and less than 2.5, the percent at or above 2.5 GPA, the percent at or above 3.0 GPA, and the mean GPA. However, the goal for this measure focuses on the percent at or above 2.5 GPA. The report also displays the number of students that are enrolled at a State University by the college from which they graduated, by ethnicity and former college preparatory/non-college preparatory status.

**A.A. Degree Transfer Performance Report - by Ethnicity**

This measure indicates the performance of Associate in Arts graduates for 2009-10 who transferred to the State Universities System (SUS) in 2010-11. A.A. students who started at one college, transferred to another and then transferred to the State University System are not accounted for in this report. The report focuses solely on the performance of students who received their complete education from one institution. This measure will allow institutions to focus on the results of their own instructional strategies, so appropriate adjustments can be made in response to the results. Performance will be reported by five categories: the percent below 2.0 GPA, the percent at or above 2.0 GPA and less than 2.5, the percent at or above 2.5 GPA, the percent at or above 3.0 GPA, and the mean GPA. However, the goal for this measure focuses on the percent at or above 2.5 GPA. The report also displays the number of students that are enrolled at a State University by the college from which they graduated, by ethnicity.
